## **DETAILED ACTION**

### ***Election/Restrictions***

This application is in condition for allowance except for the presence of claims 25-27 to an invention non-elected without traverse. Accordingly, claims 25-27 have been cancelled.

### ***Information Disclosure Statement***

IDS submitted 29 October 2003 has been considered by examiner. A signed and initialed cop is attached hereto.

### ***Allowable Subject Matter***

Claims 41-44, now renumbered 1-4, respectively, are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claim 41, now renumbered 1, while data latches and write amplifiers are well known in the state of the art – both their existence as well as their designed uses, the combination of their instantly claimed use, receiving a data strobe signal and receiving an input data at a double data rate, being in a test mode, the first and second data latch circuits latch the input data, the first and second write amplifier receiving the data from the first and second data latch circuits via the first and second input data latches, respectively, and one of the first and second write amplifier transmitting data to the memory cell array in response to the control signal is not taught or suggested in the cited prior art of record. Claims 42-44, now renumbered 2-4, respectively, depend upon the instant claim and are allowable for at least the reasons set forth supra with respect to same.

Art Unit: 2187

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
